HSTC-D-080

Automatic Label Cutting Machine

HSTC-D-080 is a combination of hot and cold cutting functions. Cold cutting is applicable for cutting paper, nylon taffeta tape etc. and hot cutting is applicable for polyester tape, woven tapes etc. With Cutting lengths from 1 - 999mm the machine can cut the tapes by fixed or unfixed length in one cutting cycle with the help of PLC control system. It also has an option to cut using the electric eye.

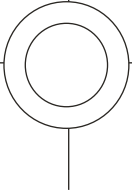

HSTC-UDC-090

Automatic Ultrasonic Label Cutting Machine

HSTC-UDC-090 is used for ultrasonic sealing the edges of label to give a smooth feel and has become important and high demand in the garment industry. The machine comes with multi functions like center fold, end fold, laser marking for folding and only cutting. It also has an option to cut using the electric eye. The machine has electrostatic charge discharger so that the labels can be stacked well and does not stick with the edges of the blade. It has conveyor belt system (optional) to check the labels and stacking at the end.
